

OLTOA

Outdoor Leader Trainers of America Bob Myron 15 Victory Lane Durham Maine 04222

Dear Paddling Enthusiast,

Thank you for your interest in our Allagash Waterway Canoe Experience from August 25-30th, 2021. We look forward to helping you bring your canoeing skills to a new level as we share the wonderful experience of the Allagash Wilderness Waterway. Our goal is to make this the best canoe/camping vacation you have ever had. Please take a few minutes right now and read through this letter. We are requesting a response from you in the near future!

Our company prides itself on offering professional outdoor experiences with a personal touch. Your safety will be the number one concern of your guide.

The Allagash Waterway is a wonderful place that consists of more than 100 miles of lakes, streams, ponds and river. We will be doing a section of this waterway, which section we decide to do will depend on water levels. If the river is low, we may opt to spend our time on the lakes or a deeper section of river if water levels allow. This trip is designed for people looking for a canoe/camping vacation. Folks with minimal canoeing experience are welcome on this trip. Moose, deer, loons and eagles will share the wilderness with you as we paddle along the shores of Maine's most sought-after canoeing destination. To participate in this experience, you must be able to sit in and paddle a canoe for extended periods of time, carry a 35-pound pack over ¼ mile of uneven terrain and be comfortable in a remote environment. You must also be comfortable swimming while wearing a Personal Floatation Device. (PFD)

Your guide will be a skilled and patient instructor as well as someone who will enjoy cooking your tasty meals complete with some fresh baked deserts. Meals will be prepared using a camp stove and open fire. The campsites are all equipped with a rustic picnic table, fire ring and outhouse.

Please find a "To Bring List" below. For the safety of our entire group we ask that you arrive with everything on this list. A frequently asked question is: Will I really need everything on this list? The answer: you might, and we would rather you have it and not need it than need it and not have it! This list is compiled from over 20 years experience of guiding in this region. If we have mild temperatures and sunny days you may never open your bag with fleece sweaters, rain gear, and wool socks. On the other hand, if we have a few days of rain, wind and falling temperatures, you will be very happy to have this warm clothing handy. Days tend to be from 45 to 70 degrees and nights from 25 to 50 degrees Farenheight.

Outdoor Leader Trainers of America will provide you with a group tarp, cooking and eating utensils, 1 tent for every 2 people, group first aid kit, canoe and related equipment and meals starting with Day 2 lunch through Day 6 lunch.

(Note: Day 1 is the evening we meet at the hotel) OLTOA will cover canoe rental, all fees to enter the Allagash Waterway, and camping and shuttle fees from the takeout (end point) to the starting point.

To better prepare us for any medical emergencies we ask that you take the time to fill out the enclosed medical form and questionnaire and get it to us as soon as possible. (See on our website under "to register") Below is a rough itinerary as to what our time together will look like:

August 25th, 2021: Please meet us at the Hampton Inn at 768 Main Street in Presque Isle Maine at 5:30 PM for a pre-trip meeting and gear check. Please bring all of your gear to the meeting. You may wish to eat before you come to the meeting. The meeting usually takes a couple of hours. We will discuss water levels, gear, trip details, learn your personal goals and talk about how we can work together to enhance the safety and enjoyment of everyone on the trip. You can make reservations at the Hampton Inn by calling 1-207-760-9292. If you tell them you are traveling with Outdoor Leader Trainers of America, they should give you the corporate discount rate.

Itinerary:

Day 1: Have breakfast as a group at the hotel and then caravan to St Francis, Maine (or TBD location) to meet our shuttle driver. We will then drive our vehicles to the takeout (our ending point on the waterway) and drop them off. From here we will be driven to the starting point of our trip, pack the canoes, do some light stretching, review entering and exiting a canoe, and discuss basic canoe strokes as the group needs. We will then set off on our trip, paddle at a leisurely pace to our campsite, and set up camp.

Day 2:- 4: These days will include a variety of skills and experiences. Each trip takes on its own shape as some of what happens may be determined by the personal goals of the trip's guests. On some trips we spend time on learning camp cooking skills, on others we go over map and compass use and even basic river rescue skills if time and conditions allow. Each day we will likely get up and eat, work as a team to break camp and get out on the water so we can enjoy nature at its finest. We may have the good fortune to hear loons or see bald eagles, deer, or moose.

Day 5: We will head for our takeout where we have our cars parked. Due to a variety of water levels, group strengths, and other logistical operations we may get back to the takeout late in the day. We suggest that you plan to spend the night at the hotel, get a good rest after your canoe trip, and then head home in the morning.

This program will challenge each person to his or her level of comfort and every person should leave with some new tools in their paddler's toolbox. (Individuals who plan to participate in this class should feel comfortable swimming in a river environment while

wearing a Personal Floatation Device. They need not have river-canoeing experience, but comfort in a canoe would be a great asset.

Depending on river levels we may have the opportunity to paddle a river section with up to a Class 2 difficulty.

To help maximize the safety and learning experience for every person involved in this program, we ask that you arrive with <u>all of the required items on the "Bring List</u>". If for any reason you or anyone in your party is missing a required piece of equipment, please let me know at least one week in advance and I will do everything I can to try to assist you in obtaining the gear needed. (Yes, we know this is written twice ©.)

For the cost of \$950.00 per person we will provide Instruction and do our very best to create a safe, enjoyable, and positive learning experience for all! We need a minimum of 6 people to run this program.

<u>Full payment is needed to confirm your reservation</u>. To sign up: 1) Please call or email OLTOA to ensure that there is space in the program. 2) Please go to <u>www.oltoa.com</u> and click on "How to Register" and fill out the appropriate forms and send us your check. We reserve the right to cancel this program in an emergency situation. If you decide to cancel on or before 45 days prior to course start time you will receive a 100% refund. If you cancel between 30 and 45 days prior to class start time you will receive a 50% refund. If you need to cancel after that time no refunds will be given. If you are making flight reservations you may wish to consider purchasing trip insurance.

COVID Clause: For the safety of our customers and staff, OLTOA reserves the right to cancel any guided trip, workshop, or class during the pandemic. If we cancel a class due to the pandemic you will have the option of receiving a full refund or crediting your funds toward a future program. Thank you for your understanding.

Yours in adventure,

Bob Myron, ACA Whitewater Canoe Instructor, Master Maine Guide
